Notes:

1. Based on universities that have been on Canada's Top 50 Research Universities list for all 15 years FY2001-FY2015; and had 50 or more publications in each of the 15 years 2000-2014.
2. Publications include articles, notes and reviews published by researchers affiliated with Canadian universities or research hospitals in peer-reviewed scientific international journals, covering different fields of natural science, health science and social science and humanities. The number of journals varied from 8,296 in 2000 to 12,124 in 2014.
3. A publication may have authors from multiple institutions and it would then be counted once for each institution.
4. Publication data were obtained from Observatoire des sciences et des technologies' (OST) Canadian bibliometric database which contains data from the SCI-Expanded, SSCI and AHCI databases of Thomson Reuters.
