**Four B.C. Universities on Canada's Top 50 Research Universities List 2006
University of Victoria is Third in Research University of the Year Comprehensive Category**

Toronto- October 24, 2006 – Four British Columbia universities are on *Canada's Top 50 Research Universities List 2006*, released today by Research Infosource Inc. Together these universities took in \$498.7 million in sponsored research income, up 2.4% over last year. Total sponsored research income, for Canada's top 50 research universities, which includes government as well as non-government sources, is \$5.2 billion in fiscal 2005, a modest increase of 3.2%. This was the smallest increase in 6 years. From fiscal 2000 to 2004, annual increases were in the double digits, 23.9%, 22.7%, 12.1%, 12.6% and 17.7%, respectively.

Ranking BC's universities:

#5 University of British Columbia, down from 4th with a 1% drop in sponsored income from fiscal 2004 to 2005 for a total of \$359.5 million. UBC is also 8th on the list of universities ranked by research intensity (sponsored research income per faculty)

#19 University of Victoria, up from 20th with a 21% jump in sponsored research income. University of Victoria also came in 3rd in the comprehensive category for Research Infosource's Research University of the Year.

22 Simon Fraser University up from 21st with a 3% increase to \$59.5 million

#43 University of Northern British Columbia posted a 23.3% increase in sponsored research income of \$8.4 million. This puts it in 8th spot of universities ranked by growth in sponsored research income.

"B.C. universities continue to account for about 10% of the total sponsored research income posted by universities in Canada", says Ron Freedman, CEO of Research Infosource Inc. "Their rate of growth is slightly below the national average of 3.2%.

For the regional picture, in fiscal 2005, B.C.'s four universities took in \$498.7 million in sponsored research income, an increase of 2.4% over 2004 for 10% of the overall total. Alberta's three institutions took in \$681.1 million, up 9.6% over last year for 13% of the total. Saskatchewan's 2 universities posted a 3.5% increase in sponsored research income with \$135.4 million for 3% of the total. Manitoba, also with two institutions on the list attracted \$151.1 million, a 15.9% increase for 3% of the total. Ontario's 17 universities took in \$2.1 billion, an increase of 12.3%, representing 41% of the total. Québec was the only province to record a decrease. Its 13 universities posted \$1.4 billion in sponsored research income, down 12.6%. New Brunswick's two institutions posted \$46.8 million, up 10.7%, PEI with its one university having received \$9.7 million, up 7.3%, Nova Scotia's five institutions took in \$129.4 million, up 11.9% and Newfoundland with one university posted \$61.5 million in sponsored research income, up 22.2%.

The University of Toronto, University of Waterloo and Lakehead University earned Research Infosource's "Research University of the Year" designation in their respective categories. In the medical/doctoral category: University of Toronto came first with 99.5 points out of possible 100. McGill University was second with 95.7 points and McMaster was third with 92.8. The University of Waterloo was top in the comprehensive category with 76 points, University of Guelph came second with 72.8 and the University of Victoria rounded out this category in third place with 72.3 points. In the undergraduate category, Lakehead University came first with 47 points. Royal Military College of Canada was second with 42.7 points and University of Lethbridge was third with 36.5 points. Half the points are awarded on the basis of financial indicators and the other half on publication indicators.

The University of Toronto remained in top position on *Canada's Top 50 Research Universities List 2006* with \$708.6 million in sponsored research income in fiscal 2005, up 13.6% from last year. The Université de Montréal moved in 2nd position from 3rd last year with \$429.3 million which represents a slight drop of 3.8% from last year. McGill University drops one position to 3rd with \$423 million, a decline of 22.2% and the University of Alberta moves up one spot from 5th to 4th with \$396.9 million, up 10.2%. The University of British Columbia is in 5th position, down one from last year with \$359.5 million in sponsored research income, a slight 1% drop over last year. McMaster University is 6th, up two spots with \$345 million in income, an impressive increase of 40.1%. The University of Calgary holds on to 7th spot with \$271.5 million in sponsored research income, up 8%. The University of Ottawa moves from 10th place to 8th posting \$238.4 million in sponsored research income, an increase of 25.2%. Université Laval drops from 6th to 9th with a 17.4% decline in sponsored research income. The University of Western Ontario rounds out the top 10. It moved from 9th spot to 10th with \$179.9 million in sponsored research income, a drop of 5.9%.

Canada's Top 50 Research Universities 2006 and *Research Universities of the Year 2006* and analysis are available on the Research Infosource website, **www.researchinfosource.com**. The data were obtained from Statistics Canada and the Research Infosource Canadian University R&D database. An in-depth *Canada's Top Research Universities Report 2006*, based on 70 universities is slated for publication later this year. Research Infosource Inc., a division of The Impact Group, is Canada's source of R&D intelligence. Drawing from an extensive database, Research Infosource Inc. publishes *Canada's Top 100 Corporate R&D Spenders List*, *Canada's Top 50 Research Universities List*, and specialized reports.
